Revision History

Revision	Date	Pages	Summary of change
1	06-04-2010		Complete Revision of the document is carried out. The following are the summary of changes: a) Document Header revised b) Added Foreword by CEO c) Quality Policy & Safety Policy is revised to make it specific to include ASTC services (training, examination and consultancy) d) Quality Objectives added to this document e) Scope and other elements of quality manual are revised to include all services offered by ASTC. f) Mainly, the document has been made specific to ASTC process (compared to Rev 0 which was a generic QMS) g) BINDT assessor's comments are incorporated.
2	30-12-2010	All pages	1) Training Coordinator name changed. 2) The header revised.
3	02-04-2012	Specific pages	a) Company profile b) Foreword c) section 5.1.2 d) Annex B e) Annex C f) Annex D (added)
4	22-03-2013	All pages 21	1) The header revised 2) Examiner, Instructor, Invigilator – new names included. Training Coordinator, Administrator changed. 3) AS-QM-T-01A, AS-QM-T-01B, AS-QM-T-01C (added)
5	25-04-2013	All pages 7 22 25	1) The header revised 2) Quality Objectives revised. 3) Annex C – Para 1, Training centre coordinator/PCN coordinator appointment revised. 4) Para 7, Chief Instructor responsibilities included.
6	12-09-2013	All pages 20	1) The header revised 2) Annexure-B is revised to add form AS-QM-T-01D
7	15-01-2014	All pages 20	1) The header revised 2) Minor changes marked with line " I " on right

Foreword

Altair Engineering Inspections Pte Ltd (AEI) is committed to delivering **high-integrity PCN examination services** through a structured and continually improving Quality Management System, developed in line with **ISO 9001:2015**, **PCN24-CP08**, and **PCN24-CP09**.

While AEI's primary function is the **administration and control of qualification examinations** under the PCN scheme, we also support our global network of training and examination partners through consistent governance, oversight, and technical support.

Our Quality Management System is founded on the **Plan–Do–Check–Act (PDCA)** cycle, promoting risk-based thinking, compliance, and continual improvement across all approved locations, including ATOs, RTCs, AECs, and RECs.

AEI is committed to:

- Meeting all applicable PCN, BINDT, and ISO requirements
- Ensuring impartiality, confidentiality, and consistency in examination delivery
- Maintaining stakeholder confidence through regular monitoring, feedback, and internal audits
- Supporting candidates and partners with a dependable and compliant examination experience

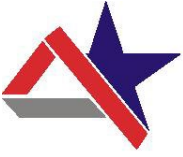

As CEO of AEI, I assure all stakeholders that this Quality Management System reflects our values and commitment to quality, and that all staff—whether at headquarters or in our affiliated centres—uphold these principles to ensure customer satisfaction.

Sincerely,

Shaik Khaja Mohiuddin

CEO

Altair Engineering Inspections Pte Ltd

(Applicable for all locations administered by AEI)

QUALITY POLICY

Altair Engineering Inspections Pte Ltd is fully committed to continually provide highest standards of quality in training and consulting services by implementing the requirements of ISO 9001:2015, CP08 & PCN CP09 criteria for examination.

Our objective is to continually improve our company performance, while offering our customers customised, cost effective and professional services.

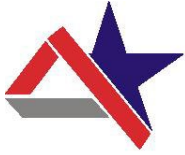

Quality performance is one of the paramount of our company culture and it is a personal responsibility of all employees in their respective functions. To maintain quality performance in all our services at the highest level, the following aims are pursued:

- ✓ To fulfil or exceed Customer needs and expectations by delivering a quality service in a consistent and timely manner;
- ✓ To cultivate and maintain the commitment to continual improvement and communicate our goals and objectives to every employee; Define how this is done?
- ✓ To provide necessary training to staff to improve their performance to exceed the customer satisfaction.
- ✓ To set measurable targets so that every staff is responsible to achieve the goals.
- ✓ To periodically review the system and policies to ensure they work effectively in achieving the company goals.

SAFETY POLICY

- ✓ Altair Engineering Inspections Pte Ltd (AEI) gives utmost priority to the safety of personnel (students, candidates, visitors and AEI Staff), its resources and facility.
- ✓ AEI's management is committed to abide by local regulations of respective countries.
- ✓ AEI staff is encouraged to take steps to prevent accidents and report near miss incidents.
- ✓ Safety induction is conducted for AEI staff, students and candidates briefing them about the emergency exits, location of fire extinguisher, emergency escape route (office & building floor plan), assembly area etc. of corresponding locations.
- ✓ AEI'S Safety slogan: "**nobody gets hurt**"

Organisational Quality Objectives
(Applicable for all locations administered by AEI)

1. To achieve ZERO major NCR in internal and external audits.
2. To achieve ZERO safety related incidents in working premises.
3. To achieve overall candidate feedback index of more than 90% in training and examination.
4. To submit all the examination result within 21 days from the date of completion of examination.

Ref Doc: QP-2014

36**1 SCOPE**

This quality management system shall be applied to all the services which include:

- a. Administration of qualification examination based on customer needs and PCN24/CP09.

2 REFERENCES

ISO 9001:2015	Quality management systems – Requirements
PCN24/GEN	General requirements for qualification and PCN certification of NDT personnel
PCN24/CP09	General requirements for the approval of Authorised Qualifying Bodies (AQB's)

3 ABBREVIATIONS AND DEFINITIONS

AQB	Authorised Qualifying Body (Main AQB)
AEC	Authorised Examination Centre (Operated outside Singapore)
REC	Remote Examination Centre
BINDT	British Institute of Non-destructive Testing
PCN	Personnel Certification in Non-destructive Testing (an internationally recognised certification scheme)

4 Context of Organization's Quality Management System**4.1 Organization and its context**

Altair Engineering Inspections Pte Ltd (AEI), established in Singapore in March 2008, is an Authorised Qualifying Body (AQB) under the PCN scheme, providing qualification examination services in Non-Destructive Testing (NDT).

This Quality Management System (QMS) applies solely to examination services conducted at AEI's main location in Singapore and its authorized AEC's and REC's. All such centres operate under AEI's supervision and in accordance with PCN document requirements.

Examinations are conducted using calibrated equipment and standardized specimens containing representative flaws. All activities are managed by competent personnel to ensure compliance with PCN requirements and impartiality in examination delivery.

AEI's objective is to ensure examination services are delivered consistently, securely and in full alignment with applicable international standards and the expectations of certification bodies.

4.2 Needs & Expectations of Interested Parties**4.2.1 Relevant Interested Parties and their needs:**

	DOCUMENT NAME		QUALITY MANUAL			
	DOCUMENT NO.	AEI-QM-T-01	REVISION	23	REVISED DATE	09-04-2025
	ISSUE DATE	07-12-2009			PAGE NO.	Page 11 of 36

AEI identifies and monitors relevant interested parties whose needs and expectations may impact the conformity of examination services under the PCN scheme. Only applicable and relevant expectations are considered inputs to the QMS.

INTERESTED PARTIES	NEEDS & EXPECTATIONS
Candidates	Fair and Secure Examinations, Timely Results and Competitive Price
Certification Body (BINDT/PCN)	Compliance with PCN requirements and Reporting
AEI Management	Integrity, Performance, and Business continuity
Examination Personnel (Staff)	Impartiality, Competency development and Support
Regulatory Authorities	Statutory and Regulatory Compliance

Relevant needs and expectations are evaluated and, where applicable, translated into QMS and process requirements to ensure conformity of services.

4.2.2 External and Internal Issues Affecting the QMS

AEI identifies and monitors internal and external factors that may affect its ability to consistently provide examination services in accordance with PCN requirements. These issues are periodically reviewed and evaluated during management review or risk assessment activities.

External Issues

- **Regulatory & Certification Requirements** – Changes in PCN documents, ISO standards or legal obligations.
- **Technological Advances:** Changes in examination tools, software, data management systems, or biometric/remote proctoring technologies.
- **Economic Conditions** – Market demand, candidate affordability, and operational costs.
- **Environmental Factors:** Conditions impacting safe and secure operation of examination centres (e.g., power failures, climate-related disruptions, or facility-related environmental hazards, paper reduction, e-waste disposal).
- **Political & Geopolitical Factors** – Trade regulations, travel restrictions or regional instability affecting REC and/or AEC operations.
- **Social Factors** – Candidate demographics, industry workforce trends and ethical expectations.

Internal Issues

- **Organizational Structure:** Roles, responsibilities and authority within AEI and its supervised AEC's and REC's.
- **Personnel Competence and Integrity:** Training, qualification, impartial conduct and examination confidentiality by examination personnel.
- **Infrastructure and Assets:** Availability and maintenance of calibrated equipment, secure examination environments of the facilities, IT and electronic systems.

	DOCUMENT NAME		QUALITY MANUAL

	ISSUE DATE	07-12-2009			PAGE NO.	Page 12 of 36

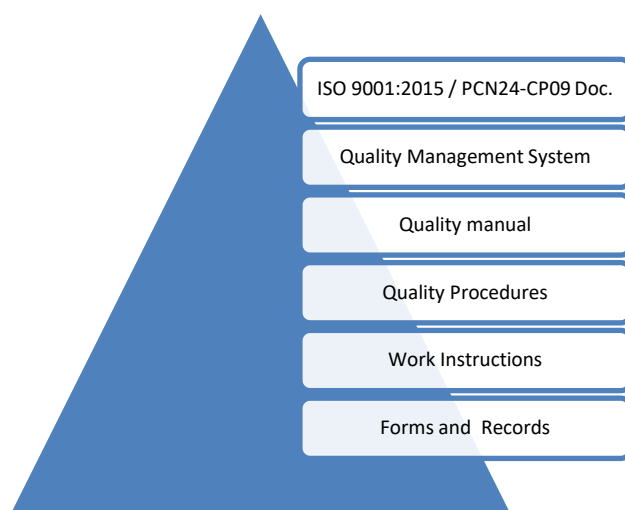

- **Policies and Strategic Goals:** Management commitment, impartiality, continual improvement and alignment with BINDT and ISO 9001 principles.
- **Data Management & Security** – Cybersecurity, record retention, and access control

4.4 Quality management system and its processes

The Quality Management System comprises this Quality Manual and Quality Procedures, which are expanded upon in Work Instructions.

The principles processes of the AEI are described in section 2 above are the provision for the administration of Qualification Examinations. The PCN examination qualification services are for the personnel engaged in the fields of engineering inspection, non-destructive testing and condition monitoring. Quality Procedure AEI-QP-T-07 is structured to address the criteria to comply with PCN24 CP9. These references mandate the provision of adequate resources and information for the processes involved and requires both internal and external monitoring and analysis to enable achievement of planned results and continual improvement of performance against measurable criteria.

The logical sequence of delivery of the above processes is AEI-QP-T-07 (conduct of qualifying examinations), and this document interact with the following procedures that have been developed and are listed at AEI-QP-T-01.

AEI AQB, AEC and REC Document Pyramid

5.1 Leadership

5.1.2 Leadership and Commitment

AEI's Top Management demonstrates commitment to the Quality Management System (QMS) by:

- Establishing and communicating the Quality Policy and measurable Quality Objectives.
- Ensuring alignment of the QMS with strategic direction and BINDT's PCN scheme requirements.
- Providing necessary resources for the effective implementation and continual improvement of examination services.

**DOCUMENT NAME****QUALITY MANUAL****DOCUMENT NO.****AEI-QM-T-01****REVISION****23****REVISED
DATE****09-04-2025****ISSUE DATE****07-12-2009****PAGE NO.**Page 13 of
36

- Promoting a culture of impartiality, integrity, and competence in examination delivery.
- Ensuring compliance with applicable statutory, regulatory, and certification requirements.
- Focusing on candidate satisfaction and conformity to examination procedures.

Top Management reviews QMS performance and ensures actions are taken to maintain its effectiveness and relevance.

5.1.3 Customer Focus

AEI Management ensures that candidate and certification body requirements are identified, reviewed and fulfilled to maintain satisfaction and compliance with BINDT's PCN scheme requirements.

- Application reviews are performed to eliminate ambiguities prior to examination delivery.
- Candidate-specific needs, including special accommodations are addressed during scheduling.
- Feedback is collected at key stages of the examination process and analysed to identify service improvement opportunities.
- Management evaluates and implements improvement actions based on feedback and performance trends.

Customer satisfaction, Confidentiality, Impartiality and Conformity to PCN requirements remain central to AEI's examination services.

5.2 Policy

5.2.1 AEI Management has established, implemented, and maintains a Quality Policy that guides the delivery of examination services in line with ISO 9001:2015 and PCN requirements (e.g. PCN24/Gen, PCN24/CP09).

5.2.2 The Quality Policy is communicated to all relevant personnel through onboarding briefings, internal emails, and visual display at AQB, AEC, and REC locations. Its continuing suitability is reviewed during management review meetings.

5.2.3 The current Quality and Safety Policy is documented in **QP-2014**.

5.3 Organizational roles, responsibilities and authorities

5.3.1 AEI ensures that roles, responsibilities, and authorities related to the QMS and examination services are clearly defined, communicated, and implemented across all locations (AQB, AECs, and RECs). The organizational structure supports impartiality, confidentiality, and compliance with PCN requirements.

5.3.2 Responsibility Matrix – Examination Services

**DOCUMENT NAME****QUALITY MANUAL****DOCUMENT NO.****AEI-QM-T-01****REVISION****23****REVISED
DATE****09-04-2025****ISSUE DATE****07-12-2009****PAGE NO.**Page 14 of
36

Role/Designation	Responsibilities	Authority
CEO	Overall accountability for the organisation	Appoints COO
COO	Overall accountability for QMS, impartiality, and compliance	Approves policies and resources
Quality Manager	Oversees QMS implementation, internal audits, nonconformities, and improvements	Stops noncompliant processes
PCN Coordinator	Manages scheduling, logistics, and examination delivery at AQB/AEC/REC	Allocates examiners and resources
Authorised Examiner	Conducts and supervises examinations, ensures security and compliance	Approves/invalidates exam sessions
Administrative Staff	Manages candidate documentation, records, and communication	Accesses and updates exam records
AEC/REC Local Supervisor	Coordinates local operations under AEI supervision	Ensures local compliance
Internal Auditor	Conducts audits of QMS processes and sites	Reports findings to Top Management

5.3.3 All personnel involved in examination activities are required to understand and carry out their responsibilities in accordance with documented procedures.

5.3.4 Specific responsibilities and authorities of the personnel, who manage, perform and verify work affecting the service provision are identified and documented in procedures covering the services concerned. A General Organisation Chart is provided in Annex A to this Quality Manual, whilst the training organisation chart is provided as Annex B.

5.3.5 Key responsibilities of position holders required as per PCN CP09 for examination processes are provided in Annex C to this quality manual.

6.0 Planning

6.1 Actions to address risks and Opportunities

AEI has established a structured approach for identifying and addressing risks and opportunities to ensure the effectiveness of its Quality Management System and to achieve intended results, customer satisfaction, and continual improvement.

This process considers the internal and external issues outlined in Section 4.2.2 of this Quality Manual, as well as the expectations of relevant interested parties.

The key objectives of AEI's risk and opportunity management process are to:

- Ensure the consistent delivery of services that meet customer and regulatory requirements.
- Enhance customer satisfaction through proactive planning and service reliability.

DOCUMENT NAME	QUALITY MANUAL				
DOCUMENT NO.	AEI-QM-T-01	REVISION	23	REVISED DATE	09-04-2025
ISSUE DATE	07-12-2009			PAGE NO.	Page 15 of 36

- Maintain traceability and reliable documentation for audit and customer reference.
- Support the achievement of AEI's Quality Policy and Quality Objectives.
- Foster a culture of continual improvement and preventive action.

The identification, assessment, and monitoring of risks and opportunities are documented in the risk register:

AEI-QM-T-01E: Register of Risks and Opportunities.

This document outlines the context, risk category, severity, likelihood, mitigation plans, responsible personnel, and review cycles.

This register shall be reviewed periodically or whenever significant changes occur (e.g., regulatory updates, technological changes, new services, or internal process changes), to ensure emerging risks and opportunities are addressed in a timely and effective manner.

6.2 Quality Objectives and Planning to achieve them

6.2.1.1 AEI has established measurable quality objectives at relevant functions and levels to ensure effective implementation of the Quality Management System for examination services under the PCN scheme. These objectives are aligned with the Quality Policy and aim to:

- Ensure conformity with PCN and regulatory requirements.
- Improve candidate satisfaction.
- Ensure accuracy, consistency, confidentiality and impartiality in examination delivery.
- Enhance staff competence and operational efficiency.
- Achieve zero major nonconformities and zero examination-related errors.

6.2.1.2 Document QP-2014, provides the quality objective set for overall organisation and individual process owners.

6.2.1.3 The objectives are reviewed during management review meetings to ensure continued relevance and to evaluate progress. Where necessary, objectives are revised to reflect changes in internal or external context, risk assessment outcomes, or stakeholder requirements.

6.3 Planning of Changes

6.3.1.1 AEI ensures that all changes to the Quality Management System (QMS), including those affecting PCN examination services, are planned and implemented in a controlled manner.

Planned changes are evaluated to:

- Maintain conformity with PCN and regulatory requirements;
- Ensure achievement of quality objectives is not compromised;
- Preserve the integrity, impartiality, and effectiveness of the QMS;
- Allocate necessary resources and responsibilities;
- Communicate changes to relevant personnel and update documentation as required.

Changes may arise from updates to PCN documents, internal audits, corrective actions, feedback, or operational needs. All changes are reviewed during management reviews and recorded as per the document control procedure.

**DOCUMENT NAME****QUALITY MANUAL****DOCUMENT NO.****AEI-QM-T-01****REVISION****23****REVISED
DATE****09-04-2025****ISSUE DATE****07-12-2009****PAGE NO.**Page 16 of
36**7 Support****7.1 Resources****7.1.1 General**

AEI ensures the provision and management of all necessary resources — human, infrastructure, equipment, and environmental — required to implement, maintain, and continually improve the effectiveness of the QMS for PCN examination services.

7.1.2 People

AEI ensures that personnel performing activities that affect examination quality (e.g., Examiners, Invigilators, Coordinators, Admins) are competent, trained, qualified and available in sufficient numbers to meet PCN and operational requirements.

7.1.3 Infrastructure

AEI maintains suitable facilities for examinations, including:

- Secure examination rooms.
- Calibrated test equipment.
- Mastered specimens with defects representative of those found in industry.
- Technical library – Reference Materials, NDT Code and Standards, Industrial Journals.
- IT systems for data entry and backup.
- Controlled access to authorised areas and materials.

Details of infrastructure requirements and examination management are described in **AEI-QP-T-07**.

7.1.4 Environment for the Operation of Processes

AEI provides a controlled environment conducive to fair and secure examinations. Environmental controls include lighting, noise levels, workspace cleanliness, and non-disruptive surroundings. Measures are in place to ensure candidate comfort, security, and impartiality during exams.

7.1.5 Monitoring and measuring resources**7.1.5.1 General**

AEI ensures that monitoring and measuring resources required for the conformity of PCN examination services are identified, maintained, and controlled. Adequate personnel, equipment, and infrastructure are provided to support effective monitoring and evaluation of examination processes.

The responsibilities for monitoring various elements are defined as follows:

Activity	Responsible Personnel
Examination grading and result conformity	Chief Examiner
Examination records, documentation, BINDT communications	PCN Coordinator
Examination Setup, Equipment calibration, facility condition, safety	Invigilator
Examination process audits and compliance verification	Quality/Internal Auditor
Customer Communication, Result Preparation, Maintaining Records	Admin/Quality

DOCUMENT NAME	QUALITY MANUAL				
DOCUMENT NO.	AEI-QM-T-01	REVISION	23	REVISED DATE	09-04-2025
ISSUE DATE	07-12-2009			PAGE NO.	Page 17 of 36

These monitoring activities are supported by defined procedures and forms to ensure consistency and traceability.

Reference Documents:

- AEI-QP-T-07 (Examination Resource Management)
- AEI-WI-T-05 (Calibration and Equipment Handling)
- AEI-FORM-21 (NDT Equipment Register & Calibration Due List)

7.1.5.2 Measurement Traceability

- Monitoring and Measuring Equipment used in examination processes is identified, uniquely tagged, and registered in the form. (Ref: AEI-FORM-21).
- Equipment requiring calibration is calibrated at defined intervals per AEI-WI-T-05.
- Calibration status is clearly marked, and records are maintained.
- Equipment found to be out of tolerance is immediately withdrawn, and previous results are reviewed for impact.
- MT/PT Chemicals expiry date shall be monitored.

A master calibration and maintenance schedule is maintained electronically and regularly backed up as per AEI’s data management procedures. A controlled copy of the AEI-FORM-21 register is submitted to BINDT as required.

7.1.6 Organizational Knowledge

AEI determines, maintains, and makes available the knowledge necessary to support its examination services in accordance with PCN and ISO 9001:2015 requirements.

Organizational knowledge is essential for:

- Ensuring process conformity and impartiality in examinations
- Maintaining compliance with PCN24 GEN, PCN24 CP09, ISO 9001:2015 and ISO 9712
- Supporting consistency and continual improvement in service delivery.

Sources of Organizational Knowledge include:

- **Internal:**
 - Documented procedures and work instructions
 - Technical Staff (Examiners, Invigilators etc) experience.
 - Nonconformance reports, audit findings, and corrective actions
 - Historical performance data and calibration logs
- **External:**
 - PCN and ISO standards (e.g., PCN24-GEN, PCN24-CP09)
 - BINDT communications and bulletins
 - Industry conferences, seminars, and technical publications
 - Customer feedback and regulatory updates

Organizational knowledge is reviewed and updated as part of change management, internal audits, and management reviews to address evolving needs and support continual improvement.

7.2 Competence, training and awareness

AEI ensures that personnel performing tasks affecting examination quality and impartiality are competent based on education, training, qualification, and experience.

- Staff are recruited as per job descriptions which define qualification and experience requirements.
- A **Minimum Competency Matrix (AEI-QP-T-09E)** defines the baseline criteria for appointment.
- All new staff undergo **documented induction training (AEI-QP-T-09A)**, covering:
 - Quality Management System awareness
 - Examination procedures
 - AEI-BINDT responsibilities

Examiners:

- Must be certified to **PCN Level 3** (or equivalent as per BINDT acceptance) and practically competent at Level 2 in the same method and sector.
- Shall be approved by BINDT and listed on AEI's AQB scope before conducting PCN examinations.

Invigilators:

- Shall be trained in line with BINDT and AEI procedures. If not PCN certified, they must be formally trained in practical invigilation for the specific methods.

AEI maintains training records and evidence of competence for all personnel involved in PCN examination delivery.

7.3 Awareness

AEI ensures that all personnel involved in examination activities are aware of:

- The **Quality Policy**, relevant quality objectives, and their role in maintaining QMS effectiveness
- The **BINDT PCN requirements**, including any changes to:
 - Examination procedures
 - Grading or moderation rules
 - Forms, marking schemes, and documentation
- Reporting of **non-compliance** with QMS and BINDT requirements.
- Industry updates, new technologies, and changes in international standards relevant to their role.

Awareness is maintained through the following mechanisms:

Method	Frequency	Responsibility
Induction and refresher sessions	On appointment	PCN Coordinator/Training Manager
Distribution of updates (PCN/ISO)	As and when released	Quality Coordinator
Staff briefings & memos	Quarterly or as needed	Training Manager
Management Review dissemination	Following MRM meetings	Training Manager

**DOCUMENT NAME****QUALITY MANUAL****DOCUMENT NO.****AEI-QM-T-01****REVISION****23****REVISED

36

Circulars / controlled email updates

As needed

Quality Coordinator

Records of induction (e.g., AEI-QP-T-09A) are maintained and reviewed during internal audits to ensure effectiveness.

7.4 Communication

AEI has established processes to ensure timely, controlled, and effective communication of information relevant to the QMS, PCN examination services, and regulatory requirements.

AEI determines and controls:

Aspect	Details
What	Quality policy and objectives, PCN/BINDT updates, examination requirements, audit results, QMS changes, safety notices, candidate instructions
When	On recruitment, revision of documents, before exams, during audits, quarterly reviews, or when urgent changes occur
With Whom	AEI staff, examiners, AECs/RECs, candidates, BINDT
How	Email, briefings, internal meetings, AEI-controlled documents
By Whom	PCN Coordinator, Quality Coordinator

Internal Communication

- Communication ensures all AEI personnel are informed of:
 - QMS requirements, changes, and performance
 - Examination processes and responsibilities
 - PCN/BINDT updates or bulletins
- Management Review Meetings (MRM) serve as a formal platform for strategic and quality-related communications.
- Records of communication are maintained through briefing notes, meeting minutes, AEI-FORM-10, and distribution logs.

External Communication

- Communications with BINDT, candidates, and stakeholders follow documented procedures to ensure clarity, traceability, and confidentiality.
- AEI ensures that any changes to procedures, examiner assignments, equipment updates, or site-specific arrangements are communicated to BINDT and/or AEC/REC in writing.

All communications are evaluated for effectiveness through internal audits and MRMs to ensure alignment with AEI's strategic goals and PCN scheme obligations.

**DOCUMENT NAME****QUALITY MANUAL****DOCUMENT NO.****AEI-QM-T-01****REVISION****23****REVISED
DATE****09-04-2025****ISSUE DATE****07-12-2009****PAGE NO.**Page 20 of
36**7.5 DOCUMENTED INFORMATION****7.5.1 General**

AEI maintains documented information in compliance with ISO 9001:2015 and PCN24 requirements to support effective examination processes.

7.5.2 Creating and Updating

When creating or updating documented information, AEI ensures:

- Clear **identification and description** (title, revision number, issue date, author)
- Proper **format and media** (electronic or hard copy)
- Review and approval for **suitability and adequacy** prior to release

All controlled documents are reviewed periodically and updated as required. Obsolete documents are withdrawn from points of use and archived or disposed as per AEI-QP-T-02.

7.5.3 Control of Documented Information

AEI implements procedures to ensure that documented information is:

- Available and accessible where and when needed
- Protected from loss of confidentiality, improper use, or deterioration
- Subject to appropriate version control, distribution tracking, and retention policies

Relevant control activities include:

Activity	Controls Applied
Distribution & access	Master document register maintained; staff notified via controlled transmittals
Retrieval & use	Documents stored securely (digitally or physically); indexed for quick retrieval
Change control	Updates logged; only latest approved version accessible at point of use
Retention & disposal	Retained as per procedure AEI-QP-T-02; destroyed securely post-retention period

Retention Periods: Records such as exam results, invigilation logs, and candidate communications are retained for **at least 11 years**, per PCN24-GEN guidance.

Confidentiality: Access to candidate records and examination materials is limited to authorised personnel only. Examination materials are securely stored in lockable cabinets.

8 OPERATION**8.1 OPERATION PLANNING AND CONTROL**

AEI plans, implements, and controls examination processes in compliance with PCN24 (CP09) and ISO 9001:2015 requirements. Operational control ensures consistent examination service delivery and impartiality at all AEI AQB, AEC, and REC locations.

Operational planning includes:

- Scheduling examinations and allocating qualified examiners and invigilators.

**DOCUMENT NAME****QUALITY MANUAL****DOCUMENT NO.****AEI-QM-T-01****REVISION****23****REVISED
DATE****09-04-2025****ISSUE DATE****07-12-2009****PAGE NO.**Page 21 of
36

- Providing appropriate and secure examination facilities, calibrated NDT equipment, approved practical specimens, and necessary consumables.
- Obtaining and securely managing centrally issued PCN examination papers.
- Ensuring impartiality and confidentiality at all stages of examination delivery.
- Maintaining records to demonstrate compliance with PCN, ISO standards, and customer requirements.

8.2 REQUIREMENTS FOR PRODUCTS AND SERVICES**8.2.1 Customer Communication**

AEI has established clear channels for effective customer communication related to PCN examination services:

Type of Communication	Responsible Person	Method/Documentation
PCN Examination arrangements and administration	PCN Coordinator / Quality	Email, telephone, official PCN documentation
Customer feedback, enquiries, or general requests	Admin / Quality	Email, official correspondence, feedback forms
Customer complaints	Quality / CEO / COO	Complaint records, investigation outcomes
BINDT communications (e.g., compliance matters, reporting)	PCN Coordinator / Quality	Formal correspondence to pcn@bindt.org

8.2.2 Determining the Requirements for products and services**8.2.2.1 Determining Requirements**

AEI identifies and documents all applicable requirements related to the delivery of PCN examination services, including:

- PCN scheme documents (**PCN24-GEN**, **PCN24-CP09**)
- BINDT specific criteria and accreditation requirements
- Candidate-specific examination requests or special accommodations
- Regulatory and statutory requirements relevant to examination services

BINDT is considered a primary customer; therefore, AEI maintains alignment with BINDT-issued documents, criteria, and updates as mandatory inputs for its examination processes.

8.2.3 Review of Requirements for products and services

AEI ensures that all examination requirements, including those stipulated by BINDT and candidates, are clearly understood, reviewed, and documented prior to acceptance.

- Requirements for PCN examinations are detailed in procedure **AEI-QP-T-07** and regularly reviewed against updates published by BINDT at www.bindt.org.
- The **Quality / Admin Coordinator** reviews and verifies candidate-provided documents or stated requirements before confirming acceptance of the examination booking.

- Amendments to examination application documents after acceptance undergo review similar to initial requirements. Minor variations are managed by the responsible administrator / quality.
- Records of requirement reviews, variations, and confirmations are retained by the admin Coordinator or quality personnel.

8.3 DESIGN AND DEVELOPMENT OF PRODUCTS AND SERVICES

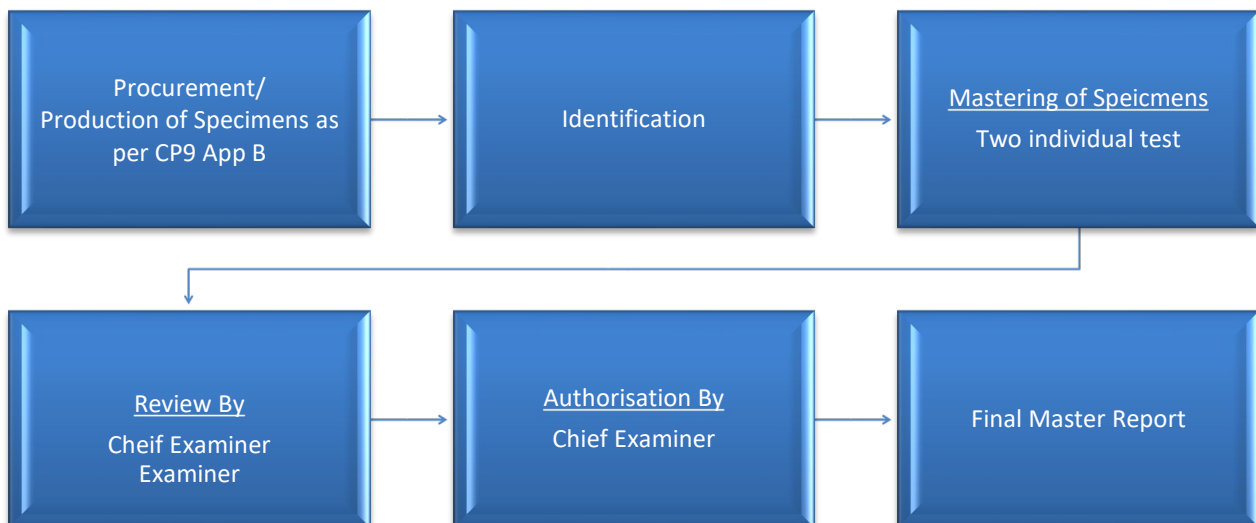

8.3.1 General

AEI excludes from its Quality Management System the **design and development of theoretical examination materials**, as these are fully controlled and supplied by BINDT in accordance with PCN CP09.

However, AEI retains responsibility for the **procurement, manufacture, validation, and control of practical examination specimens**. Specimen design and manufacturing strictly follow the criteria provided in **PCN24-CP09 Annex B**, ensuring each specimen meets BINDT's specified flaw requirements and quality standards.

Examination specimens with defects are manufactured or obtained from an approved supplier.

Process of Mastering the Specimens

8.4 CONTROL OF EXTRERNALLY PROVIDED PROCESSES, PRODUCTS AND SERVICES

8.4.1 GENERAL

AEI ensures that all externally provided products and services—such as examination specimens, equipment, calibration services, and consumables—meet specified requirements that affect the conformity of PCN examination delivery.

- Only **approved suppliers**, evaluated for capability, reliability, and regulatory compliance, are used.
- A register of **Approved Vendors** is maintained and regularly reviewed.
- Supplier performance is continuously monitored and reassessed.

**DOCUMENT NAME****QUALITY MANUAL****DOCUMENT NO.****AEI-QM-T-01****REVISION****23****REVISED
DATE****09-04-2025****ISSUE DATE****07-12-2009****PAGE NO.**Page 23 of
36**8.4.2 TYPE AND EXTENT OF CONTROL**

8.4.2.1 Materials and equipment critical to examination processes (e.g., specimens, equipment, consumables) are subject to defined inspection and verification controls upon receipt.

8.4.2.2 Practical examination specimens must conform to the specifications defined in **PCN24-CP09 Annex B**.

8.4.2.3 Equipment and accessories are assessed to ensure compliance with **CP09**, as applicable.

Verification may include:

Physical inspection upon receipt

Conformance checks against PO specifications

Calibration report prior to use

8.4.3 INFORMATION TO EXTERNAL PROVIDERS

Purchase documents clearly define:

- Product or service specifications
- Required technical standards or specifications
- Applicable PCN criteria (if relevant)
- Qualification requirements for personnel (if services are subcontracted)
- Delivery, inspection, and traceability conditions

All Purchase Orders and Subcontracts are reviewed and approved before issue to ensure completeness and correctness.

8.5 PRODUCTION AND SERVICE PROVISION**8.5.1 CONTROL OF PRODUCTS AND SERVICE PROVISION**

AEI ensures that all PCN examinations are delivered in accordance with documented procedures and PCN24-CP09 requirements. Controls include:

- Use of authorised examination papers issued by BINDT.
- Availability of validated examination specimens and calibrated equipment.
- Secure environments for written and practical assessments.
- Qualified examiners and invigilators managing the process.
- All activities performed under controlled conditions outlined in **AEI-QP-T-07**.

8.5.2 IDENTIFICATION & TRACEABILITY

Practical examination specimens are uniquely identified and securely stored. Records of use and traceability are maintained throughout the specimen's lifespan and retained for a minimum of 10 years following disposal. Access to specimens is limited to authorised AEI personnel only.

8.5.3 PROPERTY BELONGING TO CUSTOMERS OR EXTRENAL PROVIDERS

PCN examination papers and candidate documentation are treated as BINDT property. These are stored in locked areas with restricted access. Any loss or breach of examination security is reported immediately to BINDT.

8.5.4 Preservation

AEI preserves the integrity of examination materials and completed scripts by:

- Storing them in appropriate environmental conditions.

**DOCUMENT NAME****QUALITY MANUAL****DOCUMENT NO.****AEI-QM-T-01****REVISION****23****REVISED
DATE****09-04-2025****ISSUE DATE****07-12-2009****PAGE NO.**Page 24 of
36

- Ensuring protection from damage, corrosion, or tampering.
- Securing all physical materials when not in use.

8.5.5 Post-Delivery Activities

Feedback from candidates, audit outcomes, and nonconformities are analysed periodically to identify trends and support improvement in examination delivery and integrity.

8.5.6 Control of Changes

Changes to examination procedures or specimen management are reviewed, approved, and documented before implementation. All affected personnel are informed, and compliance with updated procedures is monitored.

8.6 Release of products and services (Examination – Focussed)

AEI ensures that PCN examination results are released only after all defined requirements have been verified and accepted in accordance with **PCN24-CP09** and **AEI-QP-T-07**.

The following conditions must be met prior to release of results:

- Examinations are conducted and marked by authorised examiners.
- Grading and result verification are reviewed by the PCN Coordinator or delegated authorised personnel.
- Documented evidence of conformity to PCN acceptance criteria is maintained.
- Results are traceable to the examiner(s) and the person authorising the release.

AEI retains all records associated with examination grading, result approvals, and release confirmations for audit and compliance purposes.

8.7 Control of Non-Conforming Output (Examination Specific)

AEI ensures that any nonconformity related to PCN examination services—whether in delivery, documentation, grading, or control of materials—is identified, recorded, and appropriately handled to prevent unintended impact on candidates or BINDT certification outcomes.

Nonconforming outputs may include, but are not limited to:

- Incorrectly marked or unverified examination results
- Misuse or misplacement of examination papers
- Deviation from invigilation or examination procedures
- Use of unapproved or expired examination specimens

All nonconformities are:

- Identified and documented by the Examiner, Invigilator, or Administrator etc.
- Reviewed by the **PCN Coordinator or Quality**.
- Segregated and prevented from further use (where applicable).
- Dispositioned with traceable action records.

All records of nonconformities and their resolution are maintained under **AEI-QP-T-04**.

Where necessary, nonconformities are escalated for **root cause analysis and corrective action**, as defined in **Section 10.2 – Nonconformity and Corrective Action**. This ensures appropriate corrective and preventive measures are implemented, verified, and recorded.

**DOCUMENT NAME****QUALITY MANUAL****DOCUMENT NO.****AEI-QM-T-01****REVISION****23****REVISED
DATE****09-04-2025****ISSUE DATE****07-12-2009****PAGE NO.**Page 25 of
36**9 Performance Evaluation****9.1 Monitoring, measurement, analysis and evaluation****9.1.1 General**

AEI collects and analyses data related to the delivery and outcomes of PCN examinations to:

- Verify conformity with PCN24-CP09 and internal QMS requirements
- Evaluate the effectiveness and consistency of examination processes
- Identify opportunities for improvement

Data collected includes but are not limited to:

- Examination results (written and practical)
- Examiner grading consistency (per PCN24-CP09 Clause 6.6)
- BINDT audit findings (PCN24-GEN Clause 5.3.10)
- Secure and accurate result releases (PCN24-GEN Clause 12)

This data supports Management Review inputs and continual improvement initiatives.

9.1.2 Customer Satisfaction

Customer satisfaction is monitored through:

- Candidate feedback forms
- BINDT audit outcomes and communications (PCN24-GEN Clause 5.2.9)
- Complaint trends and issue logs

Feedback is evaluated by the PCN Coordinator and reported to management. Results are used to validate process conformity and examiner integrity

9.1.3 Analysis and Evaluation

AEI uses statistical tools and qualitative analysis to:

- Evaluate result trends and feedback
- Monitor consistency of examiner grading (PCN24-CP09 Annex D)
- Detect nonconformities or procedural deviations (PCN24-GEN Clause 9.1.4)
- Ensure compliance with PCN document updates and procedural effectiveness

All insights are reviewed during Management Reviews and support QMS improvement actions under Section 10.2.

9.2 Internal Audit

AEI conducts internal audits to ensure that its Quality Management System for PCN examination services is implemented effectively and conforms to:

- ISO 9001:2015 requirements
- PCN24-CP09 criteria
- AEI's own documented procedures

Audits are scheduled annually and planned based on process criticality and results of previous audits. The internal audit procedure and schedule are defined in **AEI-QP-T-03**.

**DOCUMENT NAME****QUALITY MANUAL****DOCUMENT NO.****AEI-QM-T-01****REVISION****23****REVISED
DATE****09-04-2025****ISSUE DATE****07-12-2009****PAGE NO.**Page 26 of
36

Audits are performed by competent personnel independent of the activities being audited. Nonconformities are recorded, subjected to root cause analysis, and followed up to verify the effectiveness of corrective actions.

Audit findings are communicated to relevant personnel and top management and are used as inputs for continual improvement and Management Review.

Records of all audits and follow-up actions are maintained by the Quality.

9.3 Management Review

AEI conducts Management Reviews at least once every 12 months to evaluate the performance and continuing suitability of the Quality Management System as it applies to PCN examination services.

The meeting is coordinated by the **Quality Coordinator** and attended by the **CEO, COO, PCN Coordinator, Chief Examiner** and relevant team members. A formal agenda is circulated in advance.

The agenda includes, at a minimum:

- Review of QMS performance against Quality Policy and Objectives
- Suitability and relevance of Quality Policy and Objectives
- Analysis of candidate feedback, audit results, nonconformities, and complaints
- Status of corrective actions and previous management review decisions
- Examination performance data, grading consistency and trend analysis
- Evaluation of current resource adequacy and future needs
- Updates in PCN/BINDT criteria or external regulatory changes impacting examination services
- Business performance review and targets achieved
- Business plan for following years and its targets.

Outputs of the review include, at a minimum:

- Decisions and actions for QMS improvement
- Opportunities for improving examination service delivery
- Resource needs and action ownership with timelines

The **Management Review Report** is prepared by the **Quality Coordinator** and distributed to responsible parties. Records of management review inputs, discussions, and action plans are maintained by the Training Manager.

10 IMPROVEMENT

10.1 General

AEI is committed to the continual improvement of its Quality Management System as it applies to PCN examination services.

Improvement is driven through:

- Evaluation of Quality Objectives
- Internal audit results and nonconformance trends

**DOCUMENT NAME****QUALITY MANUAL****DOCUMENT NO.****AEI-QM-T-01****REVISION****23****REVISED
DATE****09-04-2025****ISSUE DATE****07-12-2009****PAGE NO.**Page 27 of
36

- Analysis of candidate feedback and complaints
- Management review outcomes
- Lessons learned from grading consistency checks, internal staff suggestions and BINDT audits

These inputs are evaluated to identify opportunities for system enhancement, improved service delivery, and increased compliance with PCN requirements.

10.2 Non-Conformity and Corrective Action

AEI addresses nonconformities in accordance with **AEI-QP-T-05 (Corrective Action Procedure)**. When a nonconformity occurs (e.g., exam process deviation, marking error, procedure breach):

- It is documented and investigated
- Root cause analysis is performed
- Appropriate corrective actions are implemented
- Effectiveness of the corrective action is verified
- Records are maintained and monitored during audits or reviews

Corrective actions are applied proportionately to the risk and impact of the nonconformity.

The corrective action system is detailed in AEI-QP-T-05 (Procedure for corrective action) which addresses and resolves the non-conformities and highlighted deficiencies within the Quality Management System, ensuring that the root causes are identified and eliminated to prevent recurrence.

10.2.1 Proactive Improvement (Preventive Action by Risk-Based Thinking)

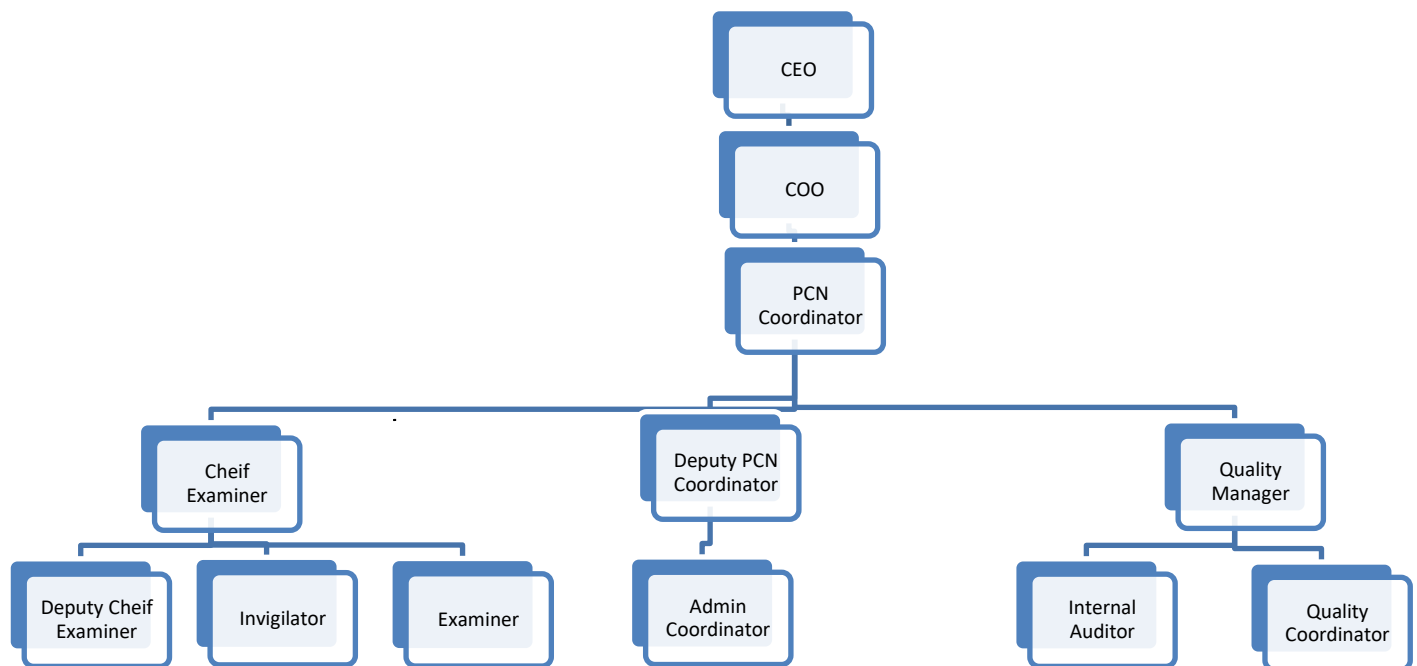

AEI identifies and addresses potential nonconformities through:

- Risk assessments during process planning
- Internal audit observations and feedback trends
- Change control and impact assessments
- Pre-emptive checks in examination setups and examiner authorisation reviews

These activities form the basis of **risk-based preventive actions** embedded throughout the QMS, even though a standalone preventive action procedure (AEI-QP-T-06) remains available for reference.

**DOCUMENT NAME****QUALITY MANUAL****DOCUMENT NO.****AEI-QM-T-01****REVISION****23****REVISED
DATE****09-04-2025****ISSUE DATE****07-12-2009****PAGE NO.**Page 28 of
36**Annex A (Functional organisation chart for Examination Process)**

The following shows the names of individuals holding positions of responsibility within the organisation related to PCN Examinations.

	DOCUMENT NAME	QUALITY MANUAL				
	DOCUMENT NO.	AEI-QM-T-01	REVISION	23	REVISED DATE	09-04-2025
	ISSUE DATE	07-12-2009			PAGE NO.	Page 29 of 36

Annex B: Specific Terms of Reference for Training & Examination Staff

All staff involved in any aspect of the administration or conduct of examinations shall be impartial with respect to candidates and shall be appropriately trained and qualified for their functions.

1.0 CEO

Person Appointed: Refer to personnel names in the AEI-QM-T-01D

2.0 COO

Person Appointed: Refer to personnel names in the AEI-QM-T-01D

The COO is appointed by the AEI management. He shall be responsible for the entire smooth operation of the training department. He shall budget for the training department as directed by management. He shall be responsible for the appointment of qualified persons for the positions. He shall chart out the vision and mission of the department and guide the department to achieve the goal.

3.0 PCN COORDINATOR

Person Appointed: Refer to personnel names in the AEI-QM-T-01D

- The PCN Coordinator is appointed by AEI and authorised by BINDT to control and administer PCN examination(s) conducted under the auspices of the AEI.
- A PCN Coordinator need not possess current valid certification but should have a level of knowledge or experience in non-destructive testing which is acceptable to BINDT.
- The PCN Coordinator shall:
 - ensure that AEI at all times complies with the requirements of BINDT, as detailed in PCN document CP9 and that AEI evolves and implements appropriate systems and procedures so as to ensure the consistency of PCN examination standards;
 - authorise all AEI staff for their role and responsibilities as defined in terms of reference which the PCN Coordinator shall approve;
 - be responsible for the control and administration of AEI quality management system and is the primary contact between AEI and PCN Certification Services;
 - inform BINDT of any abuse of the PCN Scheme of which he may become aware, as well as AEI non-compliance and corrective action;
 - record all instances of non-compliance with requirements, identify the root cause of the non-compliance, agree corrective action(s) and bring them to the attention of BINDT or its appointed assessor;
 - inform BINDT of any change in infrastructure, human or other resource that may affect the ability of AEI to comply with the BINDT requirements for AQB (Authorised Qualifying Body)
 - ensure that all necessary technical and procedural data is available to enable staff to comply with requirements;

DOCUMENT NAME	QUALITY MANUAL				
DOCUMENT NO.	AEI-QM-T-01	REVISION	23	REVISED DATE	09-04-2025
ISSUE DATE	07-12-2009			PAGE NO.	Page 30 of 36

- advise BINDT of any apparent error or discrepancy in PCN documentation;
- ensure the correct use of the PCN logo and the certification body accreditation mark, as detailed in PCN document PSL/31, on any internal documents or other devices originated within the organisation;
- advise BINDT in writing of the interruption or curtailment of a PCN examination;
- In the event that AEI discovers the potential for non-conformity, advise BINDT and propose appropriate preventive action.
- To liaise with chief examiner and ensure that all exam papers are graded.
- Is responsible for the release of result notice and certificates.
- Ensure that all enquires related to examination is properly answered and further follow up preparations are made.

4.0 DEPUTY PCN COORDINATOR

Person Appointed: Refer to personnel names in the AEI-QM-T-01D

- The Deputy PCN Coordinator is appointed by AEI and authorised by BINDT & PCN Coordinator to control and administer PCN examination(s) conducted under the auspices of the AEI in absence of PCN Coordinator.
- A Deputy PCN Coordinator need not possess current valid certification but should have a level of knowledge or experience in non-destructive testing which is acceptable to BINDT.
- The Deputy PCN Coordinator shall:
 - be responsible for the control of AEI quality management system and is the secondary contact between AEI and PCN Certification Services.
 - inform PCN coordinator of any abuse of the PCN Scheme of which he may become aware, as well as AEI non-compliance and corrective action.
 - record all instances of non-compliance with requirements, identify the root cause of the non-compliance, agree corrective action(s) and bring them to the attention of PCN Coordinator.
 - If AEI discovers the potential for non-conformity, advise PCN Coordinator and propose appropriate preventive action.
 - To liaise with PCN Coordinator and chief examiner and ensure that all exam papers are graded.
 - Is responsible for the release of result notice and certificates.
 - Liaise with Training Manager to corroborate all enquires related to training & examination is properly answered and further follow up preparations are made.

	DOCUMENT NAME	QUALITY MANUAL				
	DOCUMENT NO.	AEI-QM-T-01	REVISION	23	REVISED DATE	09-04-2025
	ISSUE DATE	07-12-2009			PAGE NO.	Page 31 of 36

5.0 CHIEF EXAMINER

Person Appointed: Refer to personnel names in the AEI-QM-T-01D

AEI shall appoint a Level 3 certificated and technically competent individual acceptable to BINDT who shall be responsible for the provision of all facilities for examination, and for the preparation, conduct and standards of examination and who shall be designated Chief Examiner on AEI certificate of authorisation.

The Chief Examiner is also an Examiner, and shall follow the terms of reference of an Examiner, but shall, in addition:

- authorise all examination specimen master reports by signature, and be responsible for the content and review of such master reports
- prepare and authorise by signature the marking schedules for all narrative answer questions, ensuring that they include key points and marks for answers
- prepare and authorise by signature the marking schedules for all practical examinations, ensuring that grading of practical examinations is in accordance with PCN document CP22
- Be responsible for ensuring that invigilators have received appropriate training in the points to be observed and recorded during practical examinations
- Chief Examiner can delegate his responsibilities to deputy chief examiner.

6.0 DEPUTY CHIEF EXAMINER

Person Appointed: Refer to personnel names in the AEI-QM-T-01D

AEI shall appoint a Level 3 certificated and technically competent individual acceptable to BINDT & AEI who shall be responsible for the provision of all facilities for examination, and for the preparation, conduct and standards of examination in the absence of Chief Examiner.

The Deputy Chief Examiner shall also be an Examiner, and shall follow the terms of reference of an Examiner, but shall, in addition:

- In the absence of Chief Examiner authorise all examination specimen master reports by signature and be responsible for the content and review of such master reports.
- prepare the marking schedules for all narrative answer questions, ensuring that they include key points and marks for answers and get the authorisation from Chief Examiner
- prepare the marking schedules for all practical examinations, ensuring that grading of practical examinations is in accordance with PCN document CP22 and get the authorisation from Chief Examiner
- ensure that all examination marking is carried out using red ink;
- Be responsible for ensuring that invigilators have received appropriate training in the points to be observed and recorded during practical examinations.

7.0 EXAMINER

Person Appointed: Refer to personnel names in the AEI-QM-T-01A

	DOCUMENT NAME		QUALITY MANUAL			
	DOCUMENT NO.	AEI-QM-T-01	REVISION	23	REVISED DATE	09-04-2025
	ISSUE DATE	07-12-2009			PAGE NO.	Page 32 of 36

An Examiner is an individual certificated to level 3 in the method and sector for which he or she is to conduct, supervise and grade PCN examinations and who is authorised so to do by BINDT on the basis of an acceptable curriculum vitae after having received appropriate training by AEI.

All level 3 certificated and BINDT authorised examiners are permitted to mark and grade any PCN level 3 Basic Examination, irrespective of whether they hold the certification for the sector/method concerned, since the content of the Basic Examination is common, regardless of the scope of the intended Main Method examination.

An Examiner shall:

- be impartial towards candidates that they are assigned to examination, declaring any interest that they may have towards a candidate or group of candidates, refraining from conducting examinations where their impartiality is in doubt or threatened;
- carry out and supervise the conduct of PCN examinations carried out under the authorisation of AEI, and only conduct those examinations for which they are authorised on the BINDT schedule of AEI;
- remain contactable by the appointed invigilator at all times when PCN examinations are being conducted;
- mark, using only red ink, and grade PCN examinations in accordance with AEI authorised procedures and PCN specifications;
- maintain a curriculum vitae, providing a copy for retention as AEI record, transmitting a copy to BINDT upon request;
- when so directed by the Chief Examiner, carry out reviews of specimens and associated master reports;
- When required to do so, invigilate PCN examinations, following the terms of reference for Invigilators.

REFER BINDT LIST

8.0 INVIGILATOR

Person Appointed: Refer to personnel names in the AEI-QM-T-01C

An Invigilator is an individual trained by AEI in the process of examination invigilation to BINDT requirements, particularly with respect to the points to be observed during a practical examination. Invigilators, who will be named as such within AEI quality documentation and on AEI approval certificate, are authorised by PCN Coordinator and supervised by an examiner.

The term supervised, in this context, means that invigilation is effectively controlled by an authorised examiner who is available and contactable by the appointed invigilator at all times when PCN examinations are being conducted.

An invigilator shall:

- follow AEI procedure for examination invigilation;
- be impartial towards candidates whose examinations they are assigned to invigilate, declaring to the responsible examiner or PCN Coordinator any interest that they may have towards a particular candidate or group of candidates, refraining from invigilating examinations where their impartiality is in doubt or threatened;

- be appropriately qualified if invigilating practical examinations, refraining from invigilating examinations for which they are not qualified or authorised;
- prevent any other activity, such as training, from interfering with the conduct of a PCN examination;
- ensure that appropriate examination conditions are maintained at all times;
- ensure that the examination conditions are to the satisfaction of all candidates prior to the commencement of PCN examinations, including provisions for acceptable levels of comfort (lighting, temperature etc.).
- verbally brief examination candidates prior to the commencement of examinations, that it is the candidate's responsibility to inform the examination invigilator if they feel that the prevailing conditions are such that they may adversely affect the examination result;
- in the event that examination conditions deteriorate to a level below that required by BINDT, terminate or suspend the examination and immediately report the occurrence to the responsible examiner;
 - *NOTE: terminated or suspended examinations shall not be restarted until the conditions are restored to a standard conducive to maintaining the candidate's comfort and concentration and to the conduct of PCN examinations*
- ensure that no candidate is permitted an unfair advantage or to collude with other candidates
- ensure that any infringement of examination conditions by any candidate is recorded, and reported without delay to the Chief Examiner or PCN Coordinator.
- Practical Invigilator shall secure all PAUT & TOFD exam data and store in password protected designated folder.

REFER BINDT LIST

9.0 ADMINSTRATIVE COORDINATOR

Person Appointed: Refer to personnel names in the AEI-QM-T-01D

The administrator shall be responsible for
